Dr. Macy Burkett, a researcher at the University of Kansas, is a mom of two and a pregnancy loss survivor. Having endured two miscarriages and an ectopic pregnancy, Macy will discuss the invisible and isolating grief that comes with pregnancy loss. She will also provide advice to professionals in all industries about how they can support employees suffering from miscarriages. Please join us for this interactive discussion to learn more about the under-discussed, but all-too-common experience of miscarriage and pregnancy loss.
